

SYNTHETIC TURF PAINTS

Removable, Synthetic Turf Paint

Water Based, Environmentally Safe, Temporary coating.

Stripe-X is a specially formulated water-based coating to be applied as a durable yet truly removable line and logo marking paint for synthetic turf fields. The salient feature of STRIPE-X is that it can be conveniently dissolved and then washed away by using a safe water-based STRIPE-X remover and water. Stripe-X is a safe, non flammable, non-toxic choice for your athletic needs.

Apply STRIPE-X with a standard Air-Less striping machine.

SPRAYCHALK

Temporary Aerosol Line Marking Chalk for Synthetic Turf Fields

Temporary SprayChalk is a versatile temporary and completely removable line marking paint for synthetic turf fields. Good for interior or exterior surfaces. SprayChalk is harmless to the synthetic turf and to the environment. Ideal for use to mark Football, Soccer or Lacrosse lines on synthetic turf which can easily be removed with a broom or washed away with soap & water.

PAINTOFF

Athletic Field Paint Remover

Paint off is a Heavy Duty Paint remover developed for use on synthetic fields. Apply straight with pump sprayer or bottle. Let remover stand for at least one minute before agitation. Rinse thoroughly to remove remaining residue. Also available in aerosol.
